SMART MONEY CONCEPT SIMPLIFIED

By:Goitse-Modimo Odirile Mathibe

Chapter: MODELS

WE HAVE TWO TYPES OF MODELS.
BUY TO SELL MODEL & SELL TO BUY MODEL

•BUY TO SELL MODEL.

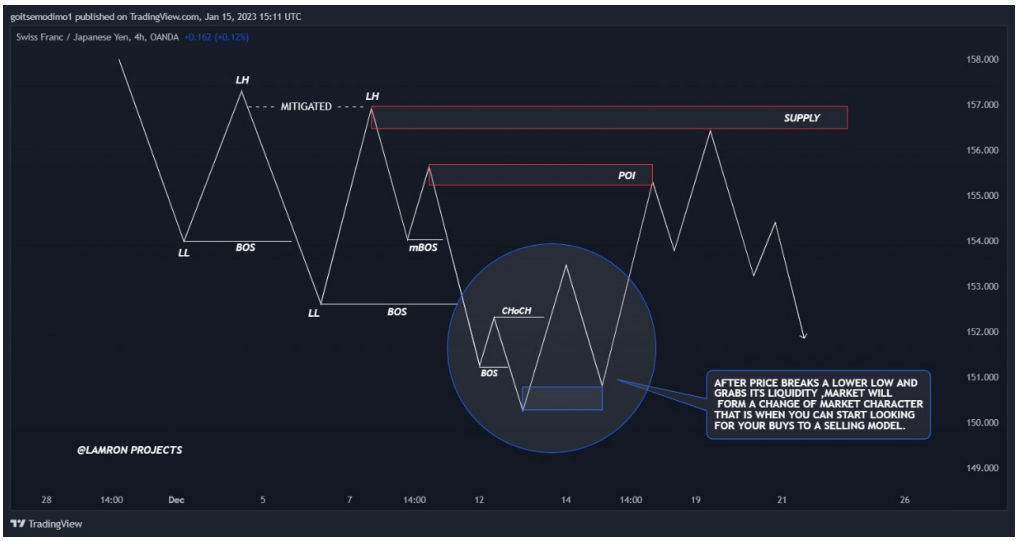

>Basically What I'm Trying To Tell You In This Chapter Of ***MODELS*** Is That ,Normally We Know That On A **Bearish Trend** The Rules State That Price Should Break **Lower Lows** And Respect **Lower Highs.**

>So Sometimes When Market Breaks A Low And Grab Its Liquidity Most Traders Will Wait For The Market To Come To Their **POI (**Point Of Interest) Or Supply. And That's When They Are Going To Start Taking Trades With Sells To Continue With The Bearish Movement.

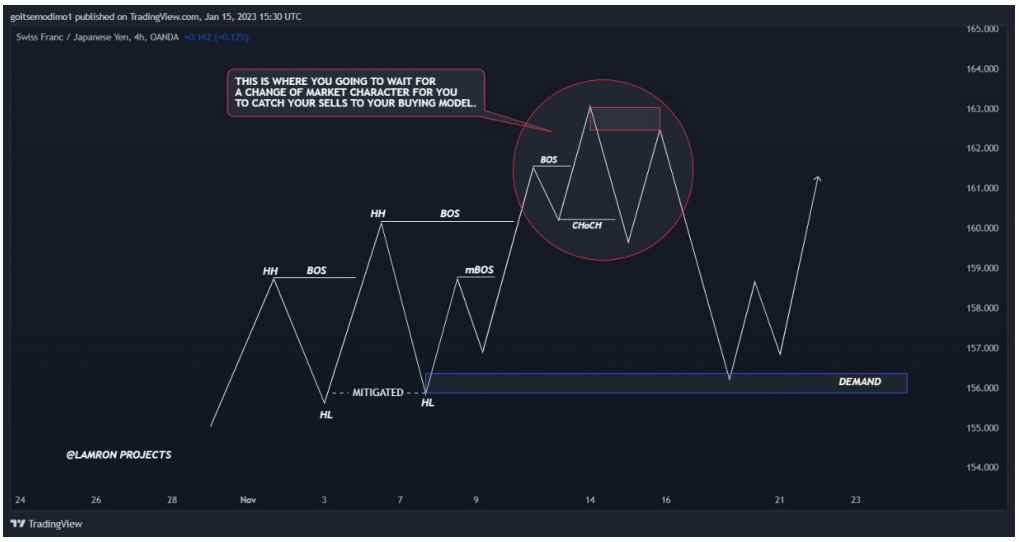

>But What They Do Not Understand Is That We Do Have Something Which Is Called ***Buy To Sell Model*** Which Allows You To Catch Buys On A **Downtrend** Before You Can Catch Your Sells For The *Overall Trend* Afterwards. That's Why We Call It A Buy To Sell Model Which Means We Will Be Trading Our Grab Of Liquidity.

>There's A Way Of Trading A Grab Of Liquidity Because Each And Every High And Low Has A **CHoCH** (Change Of Market Character).

BUY TO SELL MODEL STRUCTURE.

SELL TO BUY MODEL STRUCTURE.
